

New Investigators Grant Writing Institutes: The CAREER Academy

http://www.research.vcu.edu/vpr/grant_writing/index.htm

The Virginia Commonwealth University CAREER Academy, part of the New Investigators Grant Writing Institutes (GWI), provides year-long, intensive proposal development training to VCU faculty who will apply to the National Science Foundation's Faculty Early Career Development Program (CAREER) within two years. The CAREER Academy brings together an interdisciplinary cohort of researchers to build skills in competitive proposal development, learn and practice effective communication to diverse audiences, and participate in on-going critical review. Grant Writing Institutes are funded and coordinated by the VCU Office of the Vice President for Research and Innovation.

2015-2016 CAREER Academy Cohort

Dr. Natalie Baker
Program in Homeland Security
and Emergency Preparedness

Dr. Carol Fung
Department of
Computer Science

Dr. Laleh Golshahi
Department of Mechanical
and Nuclear Engineering

Dr. Ibrahim Guven
Department of Mechanical
and Nuclear Engineering

Dr. Heather Lucas
Department of Chemistry

Dr. Bridget McInnes
Department of
Computer Science

Dr. Reza Mohammadi
Department of Mechanical
and Nuclear Engineering

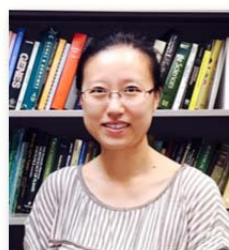

Dr. Christina Tang
Department of Chemical
and Life Science Engineering

Dr. Wei-Ning Wang
Department of Mechanical
and Nuclear Engineering

Dr. Qiong Zhang
Department of Statistical
Sciences & Operations Research

Dr. Wenheng Zhang
Department of Biology

Dr. Hong Zhao
Department of Mechanical
and Nuclear Engineering
