What do you need to report?
Financial and non-financial interests held by you and any member of your immediate family.
Be sure to include interests from the last 12 months and their research relatedness, if any, to all proposed or ongoing research.
If you're unsure what to report in each section, click on the HELP icons!
Don't forget to report US and non-US activities and travel!

You're finished!
At the end of the smartform, you'll click the checkbox to affirm the accuracy of your reported financial interests. Click Finish in the bottom right-hand corner of your screen to submit.
On the main FIR page, the current state will now be "Active" and your history will show that you've submitted your annual disclosure.
Things to remember..

Interests should be updated within 30 days of discovering or acquiring a new financial or non-financial interest.
